

METHFI

MESSAGE FROM THE CEO

“It a wonderful journey of investment and earning. We can't thank you enough for your support and hard work .We are over subscribed 3- time than we expected or in other words we achieved 2029 target now it self.”

We are bounded to multiple regulatory boards and external audits . strictly follow all the terms and conditions .

Methfi is a Limited number of coin ecosystem , so we can't increase supply, controlling transactions is impossible and resulting in high Gas fee's and off market sale of coins .

Hence we have decided to introduce Add on coin which will help to share the load and serve bigger community world wide.

Rename/add-on/new coin ?

To overcome this overload we are planning to come with

Add on coin along with collaboration of LVNA with high number of coin supply, paper work is completed and awaiting for the crypto regulatory board approval.

Road Map:

- *Will launch the airdrop and pre-Launch sale soon after clearance.*

New set of plans and bonus will share the load. ●

- *New coin will operate stand alone and then Methfi , GOE and LVNA internal swaps will helps for merger.*

- *As soon as possible all METHFI, GOE & LVNA will be converted to new coin*

By end of this year we will replace ETHFI with new coin in all international exchanges ●

Launching Dates & Plans
